Comments	<input type="text" value="I've supported the club all my life and also played for the club at a younger level. It's so important for Oxfordshire and more importantly the city of Oxford to have a professional football club. The proposed site is a perfect location with easy access for travel, being very close to Oxford parkway for train and bus. I believe it will also create more job opportunities for people who live locally and encourage more people to attend matches, which is important to the club as they've always been family oriented."/>
