Comments	<input type="text" value="I fully support the football stadium in kidlington. The location is ideal as a new home, good transport links including the train station near by. If oufc Lose their current home, as before, they may struggle to find another at this point possibly leading to the club liquidising, this for many, is not acceptable. I understand the local protests against such development, however, please look at the bigger picture, kislington is a multi cultural environment and a football team of such magnitude close by can bring all people together. This will also bring jobs for many, something the village desperately needs. If oufc will also support local clubs, it will help the community massively. I am If favour of this development as are many, unfortunately, the most opposed do not live close by and are more concerned about their properties losing value which this simply wouldn't do."/>
