Comments	<input type="text" value="The proposals for the new stadium are extremely exciting. As a fan who regularly drives to matches, I am particularly excited by the transport links of the new site, as I will be able to take the bus easily to the new proposed location or, when working in london, taking the train. Compared to the completely inaccessible current location, it would be a huge bonus.

The importance of the football club to the county, and the essential and necessary part approving the planning application for this stadium will play in securing its future, also cannot be overstated. For many, myself included, it is not merely a way of killing two hours on a Saturday afternoon; it is a genuine source of pride and happiness in our county and community that very little else offers. Losing it would be devastating it; retaining it, and boosting its accessibility and utility to the wider community through the construction of this new stadium, would be an enormous boon for the entire county.

I would urge you to approve this application."/>
