Comments	<input type="text" value="I believe this would be a positive development for not only Kidlington as a town but for Oxfordshire as a whole. Creating job opportunities in and around the area not only on match days but all the time. I believe it's a positive move for the club and the city to become proud owners of a sustainable and environmentally conscious football club. The plans show something that Oxfordshire as a county should be proud of and should be shouting from the roof tops about. I would be sickened and disappointed should these plans fall through."/>
