<b>Comments</b>	<input type="text" value="I have been an Oxford United fan for over 15 years. The proposed new stadium allows me to continue to support a club in a venue that will offer a top class experience for the matchgoing fan. Should we not be able to secure a new home this would put the future of the club at risk. The impact that this would have on the local football community would be huge. Oxford United is more than just a football club, it is a mainstay for people's mental health, a social community, a beacon for sport and offers so many different teams access and opportunities to play and express themselves. Having seen the new plans I am excited for this to come to fruition for the people of Oxfordshire and to ensure they do not lose a club that is so important to its fan base and surrounding community."/>
