Comments	<input type="text" value="I support the application as a longstanding local resident and football fan. I believe that the benefits to local people and the wider Oxfordshire community brought by a world class stadium will far outweigh any short term inconveniences on matchdays. The plans show a strong commitment by the club to minimise the impact on both the environment from the stadium (being one of the most sustainable developments of its type in the world) and with the excellent public transport links the disruption caused locally will I believe be minimised too. Having grown up in the village and having friends with young families I believe the positive impact of having the stadium here would help younger people with better facilities locally (as shown in the application). I therefore support the proposal and lol forward to seeing it come to fruition in the coming years."/>
