Comments	<input type="text" value="As a follower of Oxford United for 30 years I've been following Oxford home and away for decades.

The positive impact the football club has on the community is far reaching and a source of pride for the county. The new proposed stadium would bring a community hub, and allow the football club to have a bigger impact on the community. By not owning our own stadium the club is severely limited on the number of events it can run, and the impact it has on the community.

I've recently moved out of Oxfordshire, now driving to games from Buckinghamshire. Public transport options to the current stadium are almost non existent. The proposed new stadium site would allow easy public transport access from my local station."/>
