Comments	<input type="text" value="I fully support the proposal of a new football stadium on the triangle land near Oxford parkway station. It will be brilliant for my kids who are aged 12 and 2 and gives them an accessible activity by public transport in a county that is really lacking anything for the youth to do.

It would also mean the original stadium at Grenoble road could be knocked down and developed into high density housing to help Oxford's housing crisis, this would save some of the green belt land around Oxford having to be developed to meet future needs.

The football club helps alot of the community and schools in Abingdon and if they didnt exist alot of the county would suffer both financially and mentally."/>
