Comments	<input type="text" value="As a local I support this planning application because of the huge benefit it will have to the people of the Kidlington area and the whole of Oxfordshire.

Having grown up in OX5 I know how hard it can be to find work in the area especially for those aged 18-25. The stadium would undoubtedly provide job opportunities for those young people. It will also put the area on the national map with such a state of the art facility. The team behind the application have also stated their intentions to make the building have the minimum possible impact upon the environment, enabling it to be carbon neutral. Finally, I support the application because if planning permission is not granted I fear that this would spell the end of Oxford United, the only professional football league team in the county. This club means so much to so many and this application is the perfect way to extend the life of the club and take it to the next level for the people of Oxfordshire."/>
