Comments	<input type="text" value="Since 1893 Oxford United has been part of our community, and continues to do so. Over the years it has created jobs, supported young people, including vulnerable families, through community projects and inspires families to support a local team worthy of a higher league . We are a large city and want and deserve a stadium to build on the legacy left by so many, and continue to give hope to so many. Other councils are supporting their football clubs, and are proud to do so. I urge Oxfordshire County Council to continue this legacy, and allow Oxford United to own its own stadium. We attend games in a regular basis with grandchildren to grandparents, and everyone in between. Oxford United brings families together and gives us hope and passion and excitement. To ignore years of history will be a travesty for so many people so I add my name to support the building of a new stadium."/>
