Comments	<input type="text" value="I have been a regular supporter of Oxford United since 1968, they have taken me through many highs and quite a few lows over the last 56 years and I cannot imagine how it would feel to not have the club in my life any more. I really fear for the future of the club if the new stadium doesn't go ahead. Mr. Kassam has made his position very clear that the club cannot use the current stadium after 2026 and there has been nothing in his past actions that suggests he is likely to change his mind, if he can see an opportunity to make money out of his ownership then he will do so which will leave the club with nowhere to play. I believe Oxford benefits both financially and culturally from having a professional football club and would be a much poorer place without one. Having a professional club will also promote sports in the local community which has got to be a great facility for the local youngsters."/>
