Comments	<input type="text" value="I would like to register my support for the current application. As a resident of Oxford for over 24 years, and a lifelong supporter of Oxford United (despite now being resident in Sydney), I can see that this application is the best way to secure the club's future. Whilst I will (for now) not be directly impacted, I believe the transition from the issues at Kassam (and with Kassam) are best resolved through this development and move. Furthermore, I believe that the transport and sustainability design for the new stadium will provide incremental and additional benefits not currently enjoyed by the location in Blackbird Leys. Thoroughly support this application, and look forward to returning to Oxford, and the new Oxford United stadium at some point in my retirement."/>
