Comments	<input type="text" value="As a long term former resident of Kidlington, I have now moved out of the OX5 post area. However, I write to fully support this application as the perfect site for a new stadium and home for the sole member and representative of the Football League in the County. It is imperative that a new home is found for the club and this site must be the most perfect place for a stadium. With an excellent road network from the A34, A40 and M40 and Oxford ring road. However the icing on the cake is the extreme closeness of a main line train station. It is perfectly clear that many fans would prefer to use both the rail and local bus services to get to any game rather than drive, however for those that cannot use public transport there is adequate parking nearby. The club itself does so much for groups outside of the game of football, it will be a great bonus for all, especially the Kidlington and Cherwell areas.

The benefits it will bring to the local economy will be enormous, I fully urge the Cherwell planning committee to fully support this excellent application."/>
