Comments	<input type="text" value="I was born and educated in Oxford and am a long-term supporter of Oxford United from the early 60s to the present day. I believe that a thriving football club can provide a beneficial focus for the community as well as bring tangible benefits to young and old alike. The club is currently incurring significant costs in using the Kassam Stadium (less than ideal in terms of capacity, atmosphere and facilities and would benefit considerably from using a new, larger capacity, stadium. But this is not just about the football club. The new development would provide opportunities for many in the community to enjoy first-rate facilities throughout the week as well as supporting their local club. This seems like an ideal opportunity to create something really spectacular out of what is currently more or less waste ground. I urge the committee to approve this application and see the benefits unfold over the following decades."/>
