Comments	<input type="text" value="Living just outside Thame, the stadium move would greatly reduce my carbon footprint. A bus, train journey straight to an all electric eco-friendly built stadium rather than driving a 60 minute round trip to an environmentally unsustainable stadium makes so much sense. Whilst there are the economic benefits for Kidlington, being on the Chiltern line, approving the application, will also increase footfall to other CDC areas, an example being Bicester Village and Great Wolf Lodge with tourists and away supporters taking advantage of easy access.
I also believe this application is fully consistent with government and local policy on sustainable transport, build and operation. It would be to the benefit of CDC if you would approve this fantastic opportunity."/>
