Comments	<input type="text" value="Oxford United FC is in real danger of being homeless when the current lease at the Kassam Stadium expires in 2026. The future of the football club would be seriously compromised by the inability to occupy a stadium of their own. The present Club owners have ambitious plans to bring a world class facility to our county which will benefit not just the football club but the entire community. A brand new Stadium would generate far reaching interest within the sporting world attracting increased revenue from tourism, fans and spectators alike.

The location is well served by an excellent road network and more importantly a railway station on the doorstep. There are many Premiership Clubs that operate efficiently and successfully without these advantages. I am sure that any minor concerns can be overcome to allow this application to proceed.

This is a once in a lifetime opportunity which I hope the planning committee will view favorably when considering all advantages this proposed Stadium will bring.

Colin Organ"/>
