Comments	<input type="text" value="I was brought up in South Oxfordshire and have been a supporter of Oxford United since the 1970s and I am still regularly travelling to matches from Hampshire where I meet other exiled supporters, putting money back into the local economy. This economic benefit would not only be sustained but would increase with the new stadium, due to the connectivity with the City Centre.
Train connectivity will also reduce car dependence by exiled supporters, which will be an environmental benefit.
I am pleased to see that the sustainability of the design and bio-diversity have been considered.
The numerous other benefits to the community, local and county-wide, should also be welcomed.
A positive outcome will sustain a club, which has been part of the fabric and history of the area since 1893."/>
