Comments	<input type="text" value="I believe it is in the wrong location, it is too close to too many major roads. I also do not believe people will arrive by public transport in the main. I also do not believe it will not be used for major events, the backers are in it for the money and will require a better return on their investment. Football clubs are not money makers, most including OU are in debt. Should OUFC fail, what will then happen with this huge white elephant. How long will OU be committed to local sporting amenities once they have the go ahead? I also object to this use of a last bits of green separating Kidlington from Oxford, especially as you have allowed massive over development in the area of housing too expensive for locals, so not actually supporting Kidlington residents, but pandering to Oxford University. It will be a traffic and parking disaster for Kidlington residents."/>
