Comments	<input type="text" value="My main concern about the stadium site is good communication with the road network. In that regard, would it be possible to have a coach station with access to and from the A34? This would benefit the Stadium on a match day and make the conference facilities and other business uses of the site more viable.

The outer volume of a stadium is large. Can unused space be used for Offices, particularly smaller short-term let offices?"/>
