Comments	<input type="text" value="I have felt manipulated by OUFC
Kidlington remains a village.
It is losing promised wildlife corridor areas and green space owned by a university that is going back on its environmental promises.
I do not feel that residents will be protected from over parking near to the stadium. Little is done at the moment.
The land has a huge biodiversity which is so far protected from people.
OUFC have not - in my opinion- been open and honest about their lease situation and Kidlington should not be made to feel their only hope - they have a premises that they can keep.
I hope that CDC will protect our village on this front and others.

Kidlington should not have to accept match time road closures.

The land space is not big enough.
Cats will invade the near residential area.
The footprint in the village will increase and I feel that crime rate could rise."/>
