<b>Comments</b>	<input type="text" value="I am writing in support of the new stadium proposal for Oxford United. The carefully designed stadium will be a fantastic community facility to be used by the whole of the county and be available to the OUFC women's team as well, which they don't currently have at the Kassam Stadium. The location is ideal next to the Oxford Parkway railway station and I will certainly be travelling to games by train. From the extensive plans the football club have submitted, they have met all the requirements from the local council making it an all electric eco-friendly build compared to the environmentally unsustainable stadium that they currently use which has very poor transport links. This football club is so important to so many thousands of people within Oxford, Oxfordshire and even further afield this decision is so critical with the current lease expiring in just 2 years time. This is such an amazing opportunity to be able to support sport, health, education and employment in the area. Please pass these plans and let the city and county have a world class sporting facility to be proud of."/>
