| Comments | <input type="text" value="I object on the grounds of unnecessary and inappropriate traffic disruption. As I understand it, the main road from Kidlington roundabout past Oxford Parkway will be temporarily closed on matchdays to facilitate pedestrian movement between the rail/bus station and the ground. I believe this will cause unnecessary traffic build up affecting already busy routes and disproportionately affect the free movement of local residents. I recall the club proposing to build a bridge across the main road to prevent pedestrians having to cross the road - a far safer and altogether more acceptable solution."/> |
