Comments	<input type="text" value="I'm in support of the application as it'll make use of a currently wasted piece of land to provide a great community asset for the whole of Oxfordshire to be proud of. As detailed in the plans the project will enhance the area with increased bio diversity and publicly accessible space. The location is ideal with the access of public transport from Oxford parkway and numerous park and rides which will see a massive increase in people travelling via trains and bus."/>
