Comments	<input type="text" value="What a fantastic opportunity for Oxfordshire to have a world class sports stadium that can be used by the local community. The location is ideal for public transport, I don't have a car and therefore will rely on public transport to get to the new stadium. The current public transport from the city to the Kassam stadium is not very good and I know several supporters who travel to the Kassam stadium by car because it is easier than using public transport. This includes away fans who travel around the country to see their teams and they normally travel by train but do not when they go to the Kassam stadium."/>
