Comments	<input type="text" value="Oxford United is the only professional sports club in Oxfordshire and as such is an institution for the tens of thousands of of the oxfordshire public that has supported it over the years,I' ve been a regular supporter since 1960. The proposed new stadium which is a fantastic design and fit for the location is a once in a lifetime opportunity to secure the clubs future while providing much needed sports and leisure facilities for the whole county. The local community will also benefit with much needed improvements to the Stratfield Break sports fields and economic benefits for local businesses through the year. The location adjacent to the train station and park and ride site with their huge car parks will migrate the traffic problems which surround the current stadium while infrastructure improvements and careful traffic management will ensure a safe environment for pedestrians and vehicles. Please support this application."/>
