Comments	<input type="text" value="A new stadium with alternative transport links (rail and bus) would be a significant improvement on facilities at Grenoble Way and reduce road traffic.
A state of the art stadium would be a benefit not just to Oxford United but OXford and Oxfordshire and even further afield.
A stadium would have much reduced impact on traffic and the environment than say a hypermarket open 24/7.
My journey from north of Banbury to watch United could be achieved by bus and train.
The proposed site will surely be used in the future for who knows what purpose.
I am in favour of the proposed stadium"/>
