Comments	<input type="text" value="I wish to support the new stadium. Being an Oxford United fan all my life, i am somewhat blinkered in my views, however the location of the stadium and the land it is proposed to be placed upon makes sense to use this patch of land. Whilst a stadium here will clearly have opposition, the patch of land realistically wouldn't be used for anything else, and as the alternatives are limited and Oxford United's future depends on a new stadium i believe the new stadium in this location and with the job opportunities and development to the local area it will bring with it, is a bit of a no brainer for the community. This stadium will be fantastic for the local community and Oxford as a whole. Oxford United is on the up, and the new stadium will help this continue and also help to support the local community."/>
