Comments	<input type="text" value="Having a new, eco-friendly stadium for the area's biggest football club will be a huge boost for the club but also the city and surrounding area. It's likely to attract new supporters and funding to the club and my extension the local area/economy and will have a big impact on the status of football and sport in general in Oxfordshire. At a time when more and more children and adults are becoming obese encouraging people to engage in sport is an important public health matter."/>
