Comments	<input type="text" value="Many football clubs are financially exposed to critical issues with funding and I believe Oxford United without a stadium of its own will struggle too survive. It is imperative that a city of this size should have a football league club which is at the heart of the community. The historic value of Oxford United play's a large part of this famous city's values as does the universities and the Mini Plant. It would be a travesty of justice if planning approval is not granted especially in view of the influence the club has on the development of the young girls and boys across Oxfordshire."/>
