<b>Comments</b>	<input type="text" value="The county and the club need a modern day sporting arena to bring the people of the county together in support of their local club, and to provide a facility that will inspire future generations to participate in sport. The local economy also needs a boost and the stadium has the potential of major financial benefits to existing local business and will inspire and create new local businesses. The local young footballers and sports people are really excited about the prospect of a new modern local stadium that they can visit and potentially use one day. They are the future and we should provide them and ourselves with facility that will serve them long into the future. I fully and wholeheartedly support the construction of a new stadium in Kidlington."/>
