<b>Comments</b>	<input type="text" value="Oxford is in need of a state-of-the-art stadium, to not only hold football matches but to also host concerts and other events. This kind of activity will help boost the local economy and will provide jobs. The traffic infrastructure absolutely needs to be right, with plenty of parking and easy access into and out of the stadium as not everyone will travel by bus or train. I do not believe there will be an adverse effect on the local community and environment as the plans have struck a very good balance between what is urgently needed and preserving the environment."/>
