Comments	<input type="text" value="In terms of public transport links the new stadium site couldn't really be better placed, with fast and easy access by bus and train - bike and foot access will also be good. It will certainly mean that there is no reason to use a car to attend. The stadium complex is excellently designed and will be an asset to the local area visually and in terms of community benefit. The stadium will bring jobs and facilities to the area, and extend better the abilities of the OUFC Community Team to work in the locality. Away from sport, the hotel will bring more much needed hotel rooms to the area. Oxford needs a sports facility that it can be proud of and can act as a base for community engagement and benefits. The only professional sports team in the county, supported by thousands of local residents also needs a secure long term home."/>
