Comments	<input type="text" value="I'm supporting the move to the new stadium as not only will it be good for Oxford united by allowing to generate more revenue then what they are currently able to do due to circumstances beyond their control but it will also be good for the supporters as well as the Kassam has never felt like home to us and we all want to have a feeling of being home when we go to watch our team and be able to pass that on to the younger generation. Not only is this move good for Oxford united it's also going to be a great move for the community in and around the local area. The future of the club is based on the stadium going through. The future of the club is massively important to everyone associated with the club not just those currently employed by them but also the community as a whole who a lot of people use as a place to meet new and old friends alike. These interactions are so important to people as for some it may be the only interaction they have. I drive to the Kassam which I wouldn't need to do as I would be able to use public transport which I know is a major innovative the club would like to see happen."/>
