Comments	<input type="text" value="As a life long Oxford United fan, I fully support the proposed new stadium. Kidlington is in desperate need of rejuvenation and a new stadium for all to be proud of is a step in the right direction. My grandfather started taking my father to games, my father took me and now myself and family including 3 daughters attend every home game. I fully expect they will carry this on through future generations.
Kidlington and surround areas are in need of new sports facilities, bars and restaurants and what better way to do this than a new stadium. The current Kassam is very difficult to get to, is dated and the current owner left a bad taste in many supporters. Lets look to the future and bring in a new generation of fans and build OUFC into a club we can all be proud of.

All ages, male and female look forward to a Sat afternoon at the football, a Tuesday evening under the lights is a magical experience. This simply cannot be put at risk by people who hate change. The access road and rail network is already in place, cycle lanes are in process and many will walk from Kidlington, Woodstock, Oxford and further afield. The triangle will be used for housing if not a stadium so any increases in traffic will be similar regardless, the stadium traffic will only be once or twice a week for a couple of hours. The Kassam car park is awful but on our last check, only takes 45 minutes to empty with 1 exit.

My family, friends and I are fully behind the stadium.
