| Comments | <input type="text" value="I'm supporting this application as I believe that as this is the only professional football league team in Oxfordshire, it is an essential part of the community. It helps those in the county have a somewhere to go and meet like minded people who travel from far and wide, whom have this time to get away from the daily grind and focus on our national sport. Along with helping peoples well-being and mental it also helps local businesses survive with the increased revenue, this can only be a benefit to the local community. I feel that those objecting to this proposal are being very narrow minded as for a very small inconvenience, approximately every other week for an hour, which in the main would not impact them that often as it's not loke they will be travelling past every time there is an event on. For me the benefits far outweigh the negatives. It will bring people together, a venue and facilities that will offer far more than just football to the whole county and much needed revenue to the local area."/> |
