Comments	<input type="text" value="Being a supporter of Oxford United I believe that a new ground is paramount in the sustainability of the club. I think this is an excellent opportunity for the local area as it will additional footfall for local businesses. Having previously lived next to the current ground (Acacia Avenue) I never witnessed or experienced any problems with traffic or high volumes of football supporters on match day, and the proposal has excellent travel connections put in place. I am actually envious that the club didn't look at potential sites closer to my home as Abingdon is in dire need of investment of infrastructure as well as needing more people visiting our dwindling high street shops."/>
