| Comments | <input type="text" value="Oxford United Football Club is an important part of many people's lives, both those employed by the club and others who are supporters. In two year's time the club will have no home and its existence is under threat. Extensive plans have been made to create a new state-of-the-art, sustainable stadium in Kidlington which will ensure the club's future. The new stadium is less than a mile from my home and, consequently, I am likely to observe a significant impact on match days. Despite this, I support the building of the new stadium which will be of benefit to the local community and ensure that Oxford United has a long-term landmark venue."/> |
