Address	<input type="text" value="20 Cumnor Hill. Oxford Oxon OX2 9HA"/>
Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="I was born In Oxford 71 years ago and I have always said that the county needs a Home community which can be used for all sports facilities that at present we do not have. It's always been that the University's have been given more facilities than the local people and it's about time that the local people receive more. With regards to OU football stadium. This is a proposal that I feel will benefit the county and produce more jobs give us a stadium which will give this County something to be proud off. OU at present is the biggest supporting sport at present for the County and brings a lot of people here. So with all the sports facilities that have been proposed that will be used at this complex I feel strongly that this should be considered as a benefit for the County rather than being something that could downgrade. We are all proud of this County so give us something to be proud of rather than allowing the University's to be dictating what we can have or not."/>
