Comments	<input type="text" value="My wife and I have been supporting Oxford United for over 50 years and our parents and grandparents a lot longer than that. We cannot imagine life without our beloved football club to follow home and away, but a negative outcome to the new stadium proposal really will (its not a threat or maybe) be the end of our club after 2025 when Mr Kassam has instructed to move out of our 'present' home - it's not really our own when Kassam charges the club a small fortune to use the facility and limits when it can be accessed and exited. The current season has had an average of over 9000 fans per home game and in addition there are thousands of armchair fans. All these people will be terribly impacted on the loss of the club and surely no one has the right to allow this to happen. Please save our club by voting in favour of the new stadium (home) for generations of Oxford United fans to enjoy as well as the many people who will benefit from the other facilities it will offer the community as a whole. Thank you for reading this comment."/>
