Comments	<input type="text" value="I am in favour of the stadium as the benefits it will bring to not only to club but the wider community will be very beneficial. As a fan getting to and from the Kassam is very challenging however with it being at the triangle will make it very easy for me to get to games and means I'll be able to do more midweek games as well. As at the moment I am not able to attend many home games during the week. Also for away fans it will be perfectly suited for many meaning other clubs will be able to bring more fans. Again will mean more income to clubs. Local businesses like pubs and small owned restaurants around Kidlington will also see an increase in custom hopefully meaning they will be able to continue trading for years to come. Who doesn't want a local small business benefiting and doing well from a very perfectly placed stadium at the triangle? The triangle is the perfect place for the new stadium and will have many great benefits to everyone."/>
