Comments	<input type="text" value="As a life long Oxford United Fan and former season ticket holder now living in Kent, the idea of getting a train directly to a home game is a dream to me and therefore this project would be brilliant. That coupled with the hard fact that without this new stadium there is a real chance that we would lose Oxford United Football Club as a whole, is just something I cannot contemplate!

The ground on which this stadium could be built is literally scrub land and not being used, better it be used for something that will benefit thousands and provide jobs than leave it to waste or worse build houses on it!
