Comments	<input type="text" value="As a lifelong (68 years) supporter of OUFC, preceded by my dad who supported from the Headington United days, and followed by both of my children I fully support the proposed new stadium. This is not only for the benefit of OUFC but for the whole community. Until I moved to Devon last year I was a Kidlington business owner as well as an OUFC supporter and I believe that the stadium will be of huge benefit to Kidlington, from the point of view of businesses but also from the addition of facilities for the public, particularly the children and youth who will benefit from activities and employment opportunities. From a transport point of view the location will be much better than virtually any other stadium in the entire country, minimising any disruption to local residents. The proposed stadium has many green credentials, again making it a step forward. OUFC is the biggest entertainment provider in Oxfordshire so the benefits are for the whole county and the stadium is essential for the continuation of the football club."/>
