Comments	<input type="text" value="Firstly, I can understand why there is a lot of support for this proposal, however, the majority seems to be from people to whom it will have little or no detrimental effect! I have family and friends who are keen for this proposal to go ahead, but none of them live in Kidlington! I object strongly to this plan due to the lack of parking, it is wishful thinking that people attending the football matches will travel by public transport. Realistically, we all know that is not going to happen! I also strongly object to the proposal of closing access to and from Kidlington. If this is the only way to manage crowds on match days then this site is obviously the wrong location."/>
