Comments	<input type="text" value="The new stadium will be a fantastic asset and flagship for the whole of Oxfordshire, the local community and the OUFC fan base as a whole wherever they live. Massively improved travel facilities will lead to much greener travel for the vast majority of supporters, I myself have to drive a 38 mile round trip to the Kassam as public transport is not viable for me currently. At the new stadium I will have a 4 mile journey to the new EWR rail line station at Winslow where I can catch a train directly to the stadium. The club cannot extend beyond 2026 at the Kassam, which in any case is not fit for purpose any more, therefore you must not allow the club to fold which is a serious concern if planning is not approved. I urge you to approve the planning application on the facts presented, in so doing bringing benefit to the whole of Oxfordshire."/>
