Comments	<input type="text" value="I would support Oxford United's proposal to build a new stadium on the land known as the Triangle . Yes I am an Oxford supporter , yes they need a new home as a club, but this is more. The history of the club, the legendary players who have represented our club and city, we have a chance to build on that and not only secure the clubs future but build a sporting landmark that will last for decades and allow our children and grandchildren to support their local football club.

The city will further benefit from the project, local business and suppliers will benefit and there is also the additional employment. In the area .

The new proposal is not just a football stadium, it will have additional uses and will be accessible to the community, it will also reduce traffic within the city and residential areas as the location is more suitable for public transportation for all.

There are far more positives then negatives in my opinion for the whole proposal not just the football and that is why I would urge you proceed and accept the clubs application, we have one opportunity to get this right"/>
