| Comments | <input type="text" value="Oxford United is a huge part of the bond I have with my son. It's something we love doing together and that makes us feel like a party of the community that we've adopted as our home. We go to a majority of the Saturday games but are unable to go to the Tuesday evening games due to the time it takes to get home with parking at kassam and driving back. The stadium as proposed would mean we have a much shorter commute and importantly that we could use public transport from Bicester, which would make a huge difference (my son is still young enough to get really excited about every train ride we do). We'd be able to go to the Tuesday evening games as well and get home early enough for my son to get to bed. And for whatever economic consideration matters, we basically always have a meal out either before or after the game."/> |
