Comments	<input type="text" value="The plans for the new stadium are state of the art and sustainable and could be a real showpiece for the whole of Oxfordshire, something the whole county could be proud off. The current land that it would occupied is fully under utilized and has more than enough highway infostructure to deal with the match day traffic which is ultimately outside of peak rush-hour. The match day crowds would massively boost trade for the local Kidlington businesses which would benefit the whole area. Oxford united is a great family football club with a long history enjoyed by ten's of thousands around the county. It is the biggest and most successful club we have in Oxfordshire and its brings the people of Oxfordshire together for great days and nights out and creates family memories. The clubs future success and sustainability relies on getting the approval of this state or the art stadium."/>
