Comments	<input type="text" value="I fully support the application for the new ground. My grandparents moved to the city nearly 100 years ago and we still live in the county. Our support for Oxford Utd started with my grandfather in the 1940s and my son and I are long time season ticket holders. I believe the current owners of the club have finally put in place a long term plan which brings stability and the next step of that is to build the new ground. The location is the correct one with great transport access and it will provide a state of the art stadium which meets and exceeds the eco credentials the council asks all developments to meet. It is imperative for sport in the city to thrive that the council approve this application"/>
