Comments	<input type="text" value="I have been a supporter since the 60's
At the old Manor ground in Headington and would very much like to support this new stadium because of the limited time left at the Kassam stadium where we are at moment. This seems to be a great venue for a new ground with its rail and park & ride links and also close to major roads links. Being on the outside of Kidlington would not impact on Kidlington itself.
I love the fact thats it would be the first all electric stadium being Solar driven thus making it environmentally friendly and forward thinking.
We only have until 2026 before the lease runs out on the Kassam stadium which will not be renewed so please pass these forward thinking plans for a new oxford united stadium and the future of the club and supporters like myself who have supported them since a boy and now 2 generations on my son and grandson.
Kind regards
David."/>
