Comments	<input type="text" value="I am a longstanding Oxford resident. I would strongly support this development on two grounds. Firstly, it is the only feasible solution to an imminent problem that risks threatening the existence of the football club, a vital cultural asset for tens of thousands of people in Oxfordshire. Secondly, it will be an immense improvement from an environmental point of view, allowing thousands more supporters to travel by train or bus, a situation that is not practical in the current stadium location."/>
